

# AUCTIONS ARE GOOD FOR ALL

We believe auctions are a great option for people who are looking for an efficient, transparent way to buy and sell homes in any market.

## TRUE MARKET VALUE

Regardless of the direction the market is trending, listing your home through an auction lets you know that you sold your home for the true market price.

## KNOW THE TERMS UPFRONT

With DecentrePX, sellers and their agents set the most important terms upfront so buyers know what they need to offer to win in a competitive situation.

## TRANSPARENT & EFFICIENT

DPX eliminates the need to write offers that aren't competitive - saving buyers and their agents time and heartbreak, and streamlining the offer review process for sellers and their agents.
